

Dear ECVN/ESVN member,

Due to EBVS recommendations/rules, some changes were made to enhance the credentialing process (the new guidelines are updated in our website, please read them carefully). There are important changes that have to be taken into account for the current and future residents:

- Credentials cannot be submitted before completion of the Residency Programme. **This will be started to be applied for applicants wishing to submit the credentials in September 2019 in order to sit the certification examination of the European College of Veterinary Neurology in February 2020.**
- The examination process will be moved from October to February. **This will start in February 2020.** Therefore, the last examination process in October will take place in 2018. **During 2019, there will NOT be any examination process taking place.**
- The deadline for submission of the credentials will be moved to the 1st of September. **This will start from the 1st of September 2019 for those applicants who wish to take the exam in February 2020.**
- For the applicants that wish to take the exam in October 2018, the deadline for the submission of the credentials will be 15th March 2018.
