

## **Integrated Master's in Veterinary Medicine & Residency in Veterinary Neurology/Neurosurgery at the University of Glasgow**

Graduates in Veterinary Medicine, preferably with at least two years of post-graduate experience and/or a rotating internship, are invited to apply for this residency in Veterinary Neurology/Neurosurgery. Applicants must be a Member of the Royal College of Veterinary Surgeons, or hold a veterinary degree qualifying them for membership. Candidates will be expected to sit board-certification examinations of the European College of Veterinary Neurology (ECVN). The training lasts for four years and requires participation in the Small Animal Hospital clinical services, in addition to small-group teaching of veterinary students.

The neurology service is composed of one ACVIM(Neurology) Diplomate, 3 ECVN Diplomates, 3 ECVN neurology residents and one neurology nurse. The service has access to in-house 1.5T Siemens MRI, Siemens CT scanner, EMG/evoked potentials machine, CUSA surgical aspirator and is supported by a physiotherapy/hydrotherapy service.

**Closing date for applications: 15th October 2018.**

Proposed start date from 1st February 2019.
