

Neurology residency at Azurvet Specialists Veterinary Center, France (2019-2022)

Azurvet Specialists Veterinary Center is seeking a veterinary surgeon with great interest in neurology/neurosurgery to undertake a three-year ECVN conforming residency program. During the residency, you will work in a referral exclusive multidisciplinary center (neurology, diagnostic imaging, internal medicine, surgery, cardiology, dentistry and clinical pathology) with advanced on-site facilities (high-field MRI, CT, interventional fluoroscopy, CBCT, laboratory).

Beginning: 1st August 2019

Entry requirements:

- DVM
- special interest in neurology and neurosurgery
- 1-year small animal internship or an equivalent experience in private practice (at least 2 years). Additional 1-year experience in surgery or internal medicine appreciated.
- French speaking.

Please send your application by email to my attention, including updated curriculum vitae, letter of intent and 2 reference letters before 1st June 2019.

Dr Jérôme Couturier
